

Platform::Input

```
classDiagram
    class PlatformInputLinux["Platform::InputLinux"]
    class PlatformInputWin["Platform::InputWin"]
    class PlatformInput["Platform::Input"]
    PlatformInputLinux --|> PlatformInput
    PlatformInputWin --|> PlatformInput
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'Platform::Input'. Below it are two boxes: 'Platform::InputLinux' on the left and 'Platform::InputWin' on the right. A horizontal line connects the two bottom boxes, with a vertical line extending upwards from its center to the bottom of the 'Platform::Input' box, ending in an arrowhead. On the right side of the horizontal line, there are three vertical dots indicating that other classes may also inherit from 'Platform::Input'.
